Hi Brenda – here are some FYIs:

1. The Chain-of Title for Delta will take 7-10 business days and will cover 60 years. The TDD for this expires 2/15. Can we get this extended for another month?
2. The Jackpile ESI TDD expires next week. Will you get a chance to do the final sign-off on this (on Teamlink) so we can get the deliverable complete? If you can't sign off we will just finalize on our own – just looks better when we get EPA's OK.
3. I was able to find the Norphlet database and it appears that all we collected were air ER samples. From a quick glimpse – it appears to be a bunch of air samples analyzed for HF. We did not collect soil or water samples. ERRS also collected analytical for disposal from the frac tanks and the solidified material from the vapor scrubber system.

Hope your training is going well and let me know if you have any questions – Thanks! – Michelle

Please note new address and phone number in effect January 30th

which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
